GRUPO SIMEC ANNOUNCES RESULTS OF OPERATIONS FOR THE FIRST NINE MONTHS OF 2025

GUADALAJARA, MEXICO, October 27, 2025- Grupo Simec, S.A.B. de C.V. (NYSE: SIM) (“Simec”) announced today its results of operations for the nine-month period ended September 30, 2025.

Comparative first nine months of 2025 vs. first nine months of 2024

Net Sales

Net sales decreased 10% because of the combination of 9% less shipments of finished steel products and a 1% lower average sales price compared to the same period of 2024, the sales decreased to Ps. 22,320 million in the first nine months of 2025 from Ps. 24,828 million in the first nine months of 2024. Shipments of finished steel products decreased to 1 million 400 thousand tons in the first nine months of 2025 compared to 1 million 536 thousand tons in the first nine months of 2024. Total sales outside of Mexico in the first nine months of 2025 decreased 11% to Ps. 9,751 million compared with Ps. 10,979 million in the same period of 2024. Total sales in Mexico decreased 9% from Ps. 13,849 million in the first nine months of 2024 to Ps. 12,569 million in the same period of 2025.

Cost of Sales

Cost of sales decreased 9% from Ps. 18,625 million in the first nine months of 2024, to Ps. 16,893 million in the first nine months of 2025. Cost of sales as a percentage of net sales represented 76% for the first nine months of 2025 compared to 75% from the same period of the year 2024. The decrease in the cost of sales is mainly due to lower volume of steel products shipped.

Gross Profit

The Gross profit of the Company decreased 13% from Ps. 6,203 million in the first nine months of 2024 to Ps. 5,427 million in the same period of 2025. Gross profit as a percentage of net sales in the first nine months of 2025 and 2024 represented 24% and 25% respectively. The decrease in gross profit was caused by a lower volume of tons shipped in the first nine months of 2025 compared with same period of 2024, and lower average sales price per ton of steel finished goods.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 11%, to Ps. 2,036 million in the first nine months of 2025 from Ps. 1,834 million in the same period of 2024. Selling, general and administrative expenses as a percentage of net sales represented 9% in the first nine months of 2025 and 7% in the first nine months of 2024.

Other Income (Expenses,) net

The Company recorded other income net for Ps. 393 million in the first nine months of 2025 compared to other income net of Ps. 71 million in the same period of 2024.

Operating Profit

Operating Profit decreased 15% to Ps. 3,784 million for the first nine months of 2025 compared to Ps. 4,440 million in the first nine months of 2024. Operating income as percentage of net sales was 17% in the first nine months of 2025 and 18% in the same period of 2024. The decrease in operating profit was mainly due to a lower shipment of finished steel products.

Ebitda

The Ebitda of the Company decreased 11%, from Ps. 5,189 million in the first nine months of 2024 (result of net income of Ps. 8,587 million, less minority stake of Ps. 2 million, plus income taxes of Ps. 762 million, less comprehensive financial income of Ps. 4,907 million, plus depreciation of Ps. 749 million), compared to an Ebitda of Ps 4,594 million in the same period of 2025 (result of net income of Ps. 763 million, less minority stake of Ps. 2 million, plus income taxes of Ps. 793 million, plus comprehensive financial cost of Ps. 2,229 million, plus depreciation of Ps. 811 million).

Consolidated Million	First nine months of 2025 vs first nine months of 2024,	
	2025	2024
Net income (loss)	763	8,587
Loss attributable to noncontrolling interests	(2)	(2)
Net income (loss)	761	8,585
Depreciation and amortization	811	749
Income taxes	793	762
Financial results (income) loss	2,229	(4,907)
EBITDA	4,594	5,189

Comprehensive Financial Cost

Comprehensive financial cost for the first nine months of 2025 represented a net loss of Ps. 2,229 million compared with of net income of Ps. 4,907 million in the first nine months of 2024. The Company recorded a net exchange loss of Ps. 3,050 million in the first nine months of 2025 compared with a net exchange income of Ps. 3,799 million in the first nine months of 2024, net other financial income was recorded for Ps 42 million for the first nine months of 2024.

ea0262734-6k_grupo.htm	Form Type: 6-K	Page 5
Edgar Agents LLC	GRUPO SIMEC, S.A.B. de C.V.	10/27/2025 11:28 PM

Income Taxes

The Company recorded a net tax expense of Ps.793 million during the first nine months of 2025, (comprised of a current tax of Ps. 722 million and expense for deferred tax of Ps. 71 million) compared with a net tax expense of Ps. 762 million to the first nine months of 2024 (comprised of a current tax expense of Ps. 850 and income for deferred tax of Ps. 88 million).

Net Income

As a result of the foregoing, the Company recorded a decrease in net income of 91% from of Ps. 8,587 million in the first nine months of 2024 to Ps. 763 million in the same periods of 2025, mainly because the net exchange income of Ps. 3,799 million recorded in the first nine months of 2024 became a net exchange loss of Ps. 3,050 million in the first nine months of 2025.

Liquidity and Capital Resources

At September 30, 2025, Simec's total consolidated debt consisted of U.S. \$ 302,000 of 8 7/8% medium-term notes ("MTN's") due 1998, or Ps. 5.5 million (accrued interest on September 30, 2025 was U.S. \$ 863,000, or Ps. 15.8 million). At September 30, 2024, Simec's total consolidated debt consisted of U.S. \$ 302,000 of 8 7/8% medium-term notes ("MTN's") due 1998, or Ps. 5.9 million (accrued interest on September 30, 2024 was U.S. \$ 985,000, or Ps. 16.4 million).

Comparative third quarter of 2025 vs. second quarter of 2025

Net Sales

Net sales of the Company increased 6% from of Ps. 7,052 million during the second quarter of 2025 to Ps. 7,485 million in the third quarter of 2025. Shipments of finished steel products increased to 499 thousand tons in the third quarter of 2025 from 425 thousand tons in the second quarter of the same year. Total sales outside of Mexico in the third quarter of 2025 increased 2% to Ps. 3,178 million compared to Ps. 3,104 million of the second quarter of the same year. Domestic sales in the third quarter of 2025 increased to Ps. 4,307 million compared to Ps. 3,948 million in the second quarter of the same year. The average selling price decreased 10% in the third quarter of 2025 compared to the second quarter of the same year.

Cost of Sales

Cost of sales increased to Ps. 5,726 million in the third quarter of 2025 from Ps.5,381 million in the second quarter of 2025. Cost of sales as a percentage of net sales represented 77% in the third quarter of 2025 and 76% in the second quarter of the same year. The increase in the cost of sales is mainly due to a higher volumen of steel products shipped in the third quarter of 2025 compared to the second quarter of the same year.

Gross Profit

Gross profit of the Company for the third quarter of 2025 increased 5% to from Ps. 1,671 million in the second quarter of 2025 to Ps. 1,759 million in the third quarter of same year. Gross profit as a percentage of net sales in the third quarter of 2025 was of 23% compared to 24% in the second quarter of the same year.

Selling, General and Administrative Expenses

Selling, general and administrative expense increased 8% to of Ps. 728 million in the third quarter of 2025 from Ps. 674 million the second quarter of the same year, and as percentage of net sales represented 10% for the third quarter of 2025 and for the second quarter of the same year.

Other (Expenses) Income, net

The Company recorded other income net for Ps. 128 million during the third quarter of 2025 compared to other income net for Ps. 201 million in the second quarter of 2025.

Operating Profit

Operating profit decreased to Ps. 1,159 million in the third quarter of 2025 compared to an operating profit of Ps. 1,198 million in the second quarter of the same year. Operating profit as percentage of net sales represented 15% for the third quarter of 2025 compared to 17% in the second quarter of 2025.

Ebitda

The Ebitda decreased from Ps 1,473 million in the second quarter of 2025 (result of net loss of Ps. 1,000 million, less minority stake of Ps. 1 million, plus income taxes of Ps. 297 million, plus comprehensive financial cost of Ps. 1,902 million, plus depreciation of Ps. 275 million), to an Ebitda of Ps. 1,428 million in the third quarter of the same year (result of net income of Ps. 459 million, less minority stake of Ps. 1 million, plus income taxes of Ps. 317 million, plus comprehensive financial cost of Ps. 384 million, plus depreciation of Ps. 269 million).

Consolidated Million	Third quarter of 2025 vs second quarter of 2025,	
	Third quarter 2025	Second quarter 2025
Net income (loss)	459	(1,000)
Loss attributable to noncontrolling interests	(1)	(1)
Net income (loss)	458	(1,001)
Depreciation and amortization	269	275
Income taxes	317	297
Financial results (income) loss	384	1,902
EBITDA	1,428	1,473

Comprehensive Financial Cost

Comprehensive financial cost of the Company in the third quarter of 2025 represented a net loss of Ps. 384 million compared with a net loss of Ps. 1,902 million in the second quarter of 2025. Likewise, the Company recorded a net exchange loss of Ps. 718 million in the third quarter of 2025 compared a net exchange loss of Ps. 2,176 million in the second quarter of the same year.

ea0262734-6k_grupo.htm	Form Type: 6-K	Page 7
Edgar Agents LLC	GRUPO SIMEC, S.A.B. de C.V.	10/27/2025 11:28 PM

Income Taxes

The Company recorded of Ps. 317 million of expense tax during the third quarter of 2025, (comprised of an expense of current tax of Ps. 339 million and an income for deferred tax of Ps. 22 million) compared with the Ps. 297 million of expense in the second quarter of the same year, (comprised of an expense of current tax of Ps. 197 million and an expense for deferred tax of Ps. 100 million).

Net Income

As a result of the foregoing, the Company recorded a increase in net income to Ps. 459 million in the third quarter of 2025 compared to a net loss of Ps. 1,000 million in the second quarter of 2025.

Comparative third quarter of 2025 vs. third quarter of 2024

Net Sales

The net sales of the Company decreased 12% from Ps. 8,549 million during the third quarter of 2024 to Ps. 7,485 million in the third quarter of 2025. Sales in tons of finished steel products decreased 4% to 499 thousand tons in the third quarter of 2025 compared with 521 thousand tons in the third quarter of 2024. Sales outside of Mexico decreased 14% from Ps. 3,691 million in the third quarter of 2024 to Ps. 3,178 million in the third quarter of 2025. Domestic sales decreased 11% from Ps. 4,858 million in the third quarter of 2024 to Ps. 4,307 million in the third quarter of 2025. The decrease in sales in the third quarter of 2025 compared to the third quarter of 2024 is due to a decrease in the average sales price of 9% and a decrease in the volume of shipments approximately of 22 thousand of tons that represents a 4% decrease.

Cost of Sales

Cost of sales decreased 10% in the third quarter of 2025 compared to the third quarter of 2024 from Ps. 6,393 million in the third quarter of 2024 to Ps. 5,726 million in the third quarter of 2025. With respect to sales, the cost of sales of the third quarter of 2024 represented 75% compared to 77% for the third quarter of 2025. The average cost of sales per ton of steel products decreased 6% in the third quarter of 2025 versus the third quarter of 2024, due to the decrease in costs of certain raw materials mainly scrap.

Gross (Loss) Profit

Gross profit of the Company for the third quarter of 2025 decreased 18% from Ps. 2,156 million in the third quarter of 2024 to Ps. 1,759 million in the third quarter of 2025. The gross profit as a percentage of net sales represented 25% for the third quarter of 2024 compared to 23% of the third quarter of 2025.

Selling, General and Administrative Expenses

The selling, general and administrative expenses increased 11% in the third quarter of 2025 to Ps. 728 million in the third quarter of 2025 from Ps. 658 million in the third quarter of 2024. Selling, general and administrative expense as a percentage of net sales represented 10% in the third quarter of 2025 compared to 8% in the third quarter of 2024.

Other Income (Expenses), net

The company recorded other income net of Ps. 128 million in the third quarter of 2025 compared with other income net of Ps. 26 million for the third quarter of 2024.

Operating Profit

Operating profit decreased from Ps. 1,524 million in the third quarter of 2024 compared to Ps. 1,159 million in the third quarter of 2025, this represents 24% of decrease between both quarters. The operating income as a percentage of net sales was 18% for the third quarter of 2024 and 15% for the third quarter of 2025. The decrease in operating profit was mainly due to at lower average selling price.

Ebitda

The Ebitda was Ps 1,776 million in the third quarter of 2024 (result of net income of Ps. 3,152 million, less minority stake of Ps. 1 million, plus income taxes of Ps. 471 million, less comprehensive financial income of Ps. 2,098 million, plus depreciation of Ps. 252 million), compared to Ebitda of Ps. 1,428 million of the same period of 2025, (result of net income of Ps. 459 million, less minority stake of Ps. 1 million, plus income taxes of Ps. 317 million, plus comprehensive financial cost of Ps. 384 million, plus depreciation of Ps. 269 million).

Consolidated Million	Third quarter of 2025 vs third quarter of 2024,	
	Third quarter 2025	Third quarter 2024
Net income (loss)	459	3,152
Loss attributable to noncontrolling interests	(1)	(1)
Net income (loss)	458	3,151
Depreciation, and amortization	269	252
Income taxes	317	471
Financial results (income) loss	384	(2,098)
EBITDA	1,428	1,776

Comprehensive Financial Cost

Comprehensive financial cost of the Company for the third quarter of 2025 represented a net loss of Ps. 384 million compared with an income of Ps. 2,098 million for the third quarter of 2024. Also we recorded an exchange income of Ps. 1,769 million in the third quarter of 2024 and an exchange loss of Ps. 718 million in the third quarter of 2025.

Income Taxes

The company recorded a net taxes expense for the third quarter of 2025 of Ps. 317 million (including an income of deferred tax of Ps. 22 million) compared to a net tax expense of Ps. 471 million for the third quarter of 2024, (including a tax deferred expense of Ps. 33 million).

Net Income (Loss)

As a result of the foregoing, the Company recorded a decrease a net profit of Ps. 459 million in the third quarter of 2025 compared to Ps. 3,152 million of net profit in third quarter of 2024; mainly because the net exchange income of Ps. 1,769 million recorded in the third quarter of 2024 became a net exchange loss of Ps. 718 million in the third quarter of 2025.

Grupo Simec, S.A.B. de C.V. and Subsidiaries
(Subsidiary of Industrias CH, S.A.B. de C.V.)
Notes to the consolidated financial statements

1. Nature of business and relevant events

Nature of business – The principal activities of Grupo Simec, S.A.B. de C.V. and subsidiaries (the Company) are the manufacture and sale of special bar quality “SBO” commercial and profiles structural steel products for the automotive and construction industries both in Mexico, the United States (USA) and Canada. The Company is a subsidiary of Industrias CH, S.A.B. de C.V. (Industrias CH). The Company is a private company with limited liability incorporated and existing under the laws of Mexico. The address of its registered office and place of business is Calzada Lazaro Cardenas 601, Guadalajara, Jalisco, Mexico.

2. Basis of preparation

- a. **The consolidated financial statements**- As result of the adoption of IFRS mentioned in note 1, consolidated financial statement, interim no audited, have been prepared according to IAS 34, financial information interim, and are part of the first consolidated financial statement according to IFRS, issued to the year ended December 31, 2012, for this reason we have adopted the disposition of IFRS 1, additionally, this consolidated financial statement not include the information and disclosure required for annual financial statement according with IFRS.

The Company has included recurring adjustment accounting estimates considered necessary for presentation of the consolidated financial statements interim no audited according to IAS 34. Comprehensive income for the fourth quarter ended December 31, 2012 is not necessarily an indicator of comprehensive income that could be expected for the year ended December, 31 2012.

The account policies applied to these financial statement are consistent with those applied to the consolidated financial statement at December 31, 2024.

The financial statements presented on this report were prepared under International Financial Reporting Standard (IFRS).

- b. **Historic Cost**- consolidated financial statement have been prepared on the historical cost basis, except for certain financial instruments valued to fair value which are valued to fair value. Historical cost is generally based on the fair value of the consideration given in exchange for assets.
- c. **Consolidated Base**-consolidated financial statement included of Grupo Simec, S. A. B. de C. V. and the entities (including special purpose entities) controlled by the company (its subsidiaries). Control its obtained when the Company has the power to govern the financial and operating policies of an entity to obtain benefits from its activities. The outcome of subsidiaries acquired or sold during the year include in the consolidated statement of comprehensive income from acquisition date or the date of sale, as the case. Comprehensive income is attributed to both, the company and non-controlling interest even if the non-controlling present a deficit.

If necessary, further adjustments are done on the financial statements of subsidiaries to adapt their accounting policies that are aligned with those used by other group members. All transactions, balances, income and expenses between companies that are consolidated are eliminated on consolidation.

The changes in investments in subsidiaries of the company that not resulting in a loss of control is recorded as equity transactions. The book value of investments and equity of the company controlled not adjusted to reflect changes in related investments in subsidiaries. Any difference between the amount for which share are adjusted not controlled and the fair value of consideration paid or received is recognized directly in equity and attributed to the owners of the company.

When the company loss control of a subsidiary, the gain or loss on disposal is computed as the difference between (i) the aggregate fair value of compensation received ant the fair value of any retained interest and (ii) the value prior books of the assets (including goodwill) and liabilities of the subsidiary and any non-controlling interest.

The amounts recognized in other comprehensive income items relating to the subsidiary are recorded (ie to income are reclassified or transferred directly to retained earnings) in the same manner established for the case of the availability of assets or liabilities relevant. The fair value of any investment retained in the former subsidiary at the date of loss of control is considered fair value for the initial recognition in subsequent accounting according to IAS 39 "Financial Instruments Recognition and Measurement", or if applicable, the cost on initial recognition of an investment in an associate or under joint control entity.

Business acquisitions recorded using the purchase method. The consideration given for each acquisition are measured at fair value at the date of exchange, of assets given, liabilities incurred or assumed and equity instruments issued by the company in exchange for control of the acquire. Cost related to the acquisition is recognized in income incurred.

The identifiable assets acquired and liabilities assumed are recognized at the fair value at the acquisition date, except that:

-Assets and liabilities deferred income tax liabilities or assets and related agreements, employee benefits are recognized and valued in accordance with IAS 12, "Income tax and IAS 19, employee benefits, respectively;

-Liabilities or equity instruments related to the replacement by the Company acquired the business incentive base payments in shares, are valued in accordance with IFRS 2, "Share based payment" and.

The assets or group of assets for sale are classified as held for sale under IFRS 5, long term assets available for sale and discontinued operation, are valued pursuant with this standard.

Goodwill is recognized as an asset to the date on which control is acquired, the acquisition date and is valued as the excess of the amount of the consideration paid, plus the value of the non-controlling interest in the business acquired over the fair value of the acquired business share in the previously possessed, if any, on the net at the acquisition date of the identifiable assets acquired and liabilities assumed. If the value of these last is higher, the difference shall be recognized immediately in income as a gain from a bargain purchase.

The non-controlling interest on the acquired business should appraise initially at fair value or proportion of the non-controlling interest on the net value at the date of acquisition of the identifiable assets acquired and liabilities assumed. The choice of the basis of valuation of the non-controlling is done case by case.

When the consideration paid by the Company in a business acquisition includes assets or liabilities resulting from a contingent consideration, it is valued at its fair value at the acquisition date and include as part of the consideration paid.

Changes in the fair value of contingent consideration, which they describe as valuation period settings are adjusted against goodwill retrospectively determined.

The valuation period settings are settings that are determined as a result of information obtained during the “period of valuation”, which can’t exceed one year from the date of acquisition, on facts and circumstances that existed at the acquisition date. The record of changes in fair value subsequent to the period of valuation is based on the classification of contingent consideration in the statement of financial position. If the contingent consideration is classified as equity, changes in fair value not recorded and the variation may be seen as contingent consideration is recorded in liquid capital. If the contingent consideration is classified an asset or liability, changes in fair value are recognized in accordance with IAS 39 “Financial Instruments Recognition and Valuation, or IAS 37, Provisions. Contingent Liabilities and Contingent assets, as appropriate, and corresponding gain or loss is recorded in the utility.

The initial recognition of business acquisition is not completed at the end of the reporting period, in which acquisition occurs, the Company reported provisional amounts for the items whose recognition is incomplete. During the period of valuation, the Company recognizes adjustments to provisional amounts recognized asset or liability or additional requirements to reflect new information obtained about facts and circumstances that existed at the acquisition date, which if known, would have affected the valuation of amounts recognized at that time.

(1) Entities established in 2010.

- (2) Entities that change their address and fiscal authority, to the state of California, USA through 2011. Since the change, the main activity of this entities is the acquisition of new business or projects (Investment funds).
- (3) This Subsidiaries are located in San Luis Potosi, in Mexico, which were acquired by Grupo Simec, S.A.B. de C.V. in 2008. For effects of these Financial Statements, this companies are named as "Grupo San".
- (4) The parent Company ICH it's the owner of 00.59% of capital stock of this subsidiaries.
- (5) Companies established in the United States of America, except for one facility that is established in Canada.
- (6) Subsidiary established in Curacao.
- (7) Subsidiary established in Brazil. (See paragraph k, below)
 - d Cost and Expenses Classification - Are presented its function due the practice of industry belong the Company.

3. Summary of significant account policies.

a. Conversion of financial Statement of Foreign Subsidiaries

As a result of early adoption of IFRS as mentioned in Note 1, the financial statements have been prepared in accordance with IFRS-1, *First-time Adoption of International Financial Reporting Standards*.

The functional and reporting currency of the Company is the Mexican peso. The financial statements of foreign subsidiaries were translated to Mexican pesos in accordance with International Accounting Standard (IAS) 21, *"The Effects of Changes in Foreign Exchange Rates"*. Under this standard, the first step to convert financial information from foreign operations is the determination of the functional currency. The functional currency is the currency of the primary economic environment of the foreign operation or, if different, the currency that mainly impacts its cash flows.

The U.S. dollar is considered as the functional currency of the U.S. subsidiaries, SimRep Corporation and Subsidiaries, Inc (Republic) and Pacific Steel Inc. and the Brazilian real for GV do Brasil Industria e Comercio de Aco LTDA., therefore the financial statements of these subsidiaries were translated into Mexican pesos by applying:

- a. The exchange rates at the balance sheet date to all assets and liabilities.
- b. The historical exchange rate at stockholders' equity accounts and revenues, costs and expenses.

Relevant exchange rates used in the preparation of the consolidated financial statements were as follows (Mexican pesos per one U.S. dollar):

Current exchange rate as of March 31, 2025	20.4003
Current exchange rate as of June 30, 2025	18.8483
Current exchange rate as of September 30, 2025	18.3507
Current exchange rate as of December 31, 2024	20.5103

b. Cash and cash equivalents

Cash consists of deposits in bank accounts that do not generate interest. Cash equivalents consists in temporary investments refer to short- term fixed income investments whose original maturity is less than three months. These investments are expressed at cost plus accrued yields. The value so determined is similar to their fair value

c. Allowances for doubtful accounts

The Company follows the practice of recording an estimation of an allowance for doubtful accounts, which is computed considering the balance of customer with age higher than one year, those under litigation or the possible loss for non-fulfillment of the customer. Actual result may differ materially from these estimates in the future.

d. Inventories and cost of sales

Inventories are recorded at the lower of acquisition cost and production, which cost do not exceed the market value or net realizable value. The allocation of cost used is the average cost method. The net realization value represent the estimated selling price for inventories less all costs to complete all necessary costs and for sale.

The Company classifies the raw materials inventory on the balance according to the expected date of consumption but she represented as long term inventory who according to historical data and trends, are not consumed in the short term (one year).

The Company follows the practice of creating a reserve for slow moving inventory, considering all of products and raw materials with turnover greater than one year.

e. Property Plant and equipment- Are recorded at cost less any recognized impairment loss. The cost include professional fees and, for qualifying assets, borrowing costs capitalized in accordance with the accounting policies of the Company. Depreciation is recognized for writing off the cost of assets (other than land and properties under construction) less its residual value over their useful lives using the straight-line method, and commences when the assets are ready for their intended use. The estimated useful-lives, residual values and depreciation method are reviewed at the end of each year, and the effect of any change in the estimate recorded is recognized on a prospective basis.

Land is not depreciated.

Property, plant and equipment fail to recognize when they are available or when no future economic benefits expected from its use. The gain or (loss) arising on the disposal or retirement of assets, is the difference between income from the sale and book value of the asset and is recognized in income.

The estimated useful lives of the main assets of the Company are:

	Years
Buildings	10 to 65
Machinery and equipment	5 to 40
Transportation equipment	4
Furniture, mixtures and computer equipment	3 to 10

- f. Leasing-** Leases are classified as financial leases when the terms of the lease transfer substantially all the risk and benefits inherent to ownership. All other lease transfer classified as operating leases.

The assets held under finance leases are recognized as assets of the Company at their fair value at inception of the lease, or if lower, the present value of minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease liability.

Lease payments are apportioned between the finance charge and the reduction of lease obligation in order to achieve a constant interest rate on the remaining balance of the liability. Finance cost are charged directly to income, unless they can be directly attributable to qualifying assets, in which case it is capitalized in accordance with the general policy of the Company for borrowing costs. Contingent rents are recognized as expenses in the period incurred.

Income payments under operating leases are charged to expense using the straight line method during the period corresponding to the lease, but is more representative of another systematic basis is more representative of the pattern of the benefits of leasing for the user. Contingent rents are recognized as expenses in the period incurred.

If the Company receives incentives to enter an operating lease, these are recognized as a liability and the added benefit of them is recognized as a reduction of rental expenses on a straight-line basis, unless it is representative as another systematic basis is more representative of the pattern of benefits to the user.

- g. Borrowing Cost.** Borrowing costs directly attributable to the acquisition construction or production of qualifying assets, which are assets that require a substantial period of time until ready for use or sale, are added to the cost of those assets during that time until they are ready for use or sale.

The income obtained by the temporary investment of specific borrowings pending funds to be used in qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing cost are recognized in income during the period they are incurred.

- h. Intangible assets-** Intangible assets with finite useful- lives acquires separately are recorded at cost less accumulated amortization and accumulated impairment losses. Amortization is based on the straight-line method over their estimated useful lives. The estimated useful lives, residual value and amortization method are reviewed at the end of each year, and the effect of any change in the estimate recorded is recognized on a prospective basis. Intangibles assets with as indefinite useful life acquired separately are recognized at cost less accumulated impairment losses.

Disbursements arising from research activities are recognized as an expense in the period in which incurred.

An internally generated intangible asset arising out of activities of development (or from the development phase of an internal project) is recognized if and only if all the following have been demonstrated.

- Technical feasibility of completing the intangible asset so that may be available for use or sale,
- The intention of completing the intangible asset and use or sell it,
- The ability to use or sell the intangible asset,
- The manner in which the intangible asset will generate probable future economic benefits,
- The availability of adequate technical, financial or otherwise , to complete the development and use or sell the intangible asset, and
- The ability to value reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognized for internally generated intangible asset is the sum of expenditure incurred from the time that the item meets the conditions for recognition set out above. When you can't recognize an internally generated intangible asset, the development expenditure is expensed in the period incurred Subsequent to initial recognition, internally generated intangible asset is recognized at cost less accumulated depreciation and any accumulated impairment losses, on the same basis intangibles assets acquired separately.

When an intangible asset acquired in a business combination and recognized separately from goodwill, its cost is its fair value at the acquisition date (which is considered as its cost). Subsequent to initial recognition, an intangible asset acquired in a business combination are recognized at cost less accumulated depreciation and any accumulated impairment losses, on the same basis as intangible assets acquired separately.

An intangible asset is left to recognize when it is available or when no future economic benefits are expected to use. The gain or (loss) obtained arising from the lowering of intangible, calculated as the difference between the net disposal proceeds and its carrying amount is recognized in earnings.

- i. **Goodwill-** Goodwill arising from a business combination is recognized as an asset at the date on which control is acquired (acquisition date) less accumulated impairment losses. For purposes of assessing impairment, goodwill is allocated to each cash generating units of the Company expects to benefit from the synergies of this combination. The cash generating units to which goodwill is allocated are subject to impairment reviews annually, or more frequently if there is an indication that the unit may be impaired. If the recoverable amount of the cash generating units less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of the unit, based on the carrying amount of each asset in the unit. The impairment loss recognized for goodwill purposes can't be reversed at a later period. Having a cash generating unit, the amount attributable to goodwill is included in determining the gain or loss on disposal.
- j. **Impairment** of tangible and intangible assets excluding goodwill- To the end of each year, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is an indication that those assets have suffered any loss deterioration. If there is any indication, we calculate the assets have recoverable amount to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimate the recoverable amount of the cash generating unit to which the asset belong. When you can identify a reasonable and consistent distribution of corporate assets are also allocated to individual cash generating units, or otherwise, are assigned to the smallest group of cash generating units for which can be identified based reasonable and consistent distribution. Intangible assets with an indefinite useful life or not yet available for use, are subjected to test for purposes of impairment at least annually and whenever there is an indication that the asset may be impaired. The recoverable amount is the higher of fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate before tax that reflects current market assessments of the value of money and the risks specific to the asset for which have not been adjusted estimates of future cash flows. If it is estimated that the recoverable amount of an asset (or cash generating unit) is less than its carrying amount, the carrying amount of the asset (cash generating unit) is reduced to its recoverable amount. Impairment losses are recognized immediately in profit or loss unless the assets is carried at revalued amount, in which case should be considered an impairment loss as a revaluation decrease, where an impairment loss subsequently reverses, the carrying amount of the asset (cash generating unit) is increased to the revised estimated recoverable amount, so that the increased carrying amount does not exceed the carrying amount is have not been determined whether an impairment loss recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss unless the assets is recognized to an amount revalued in which case the reversal of the impairment loss is treated as a revaluation increase.

- k. Provisions** -. Provisions are recognized when the Company has a present obligation (legal or assumed) as a result of past events, if it is likely that the Company has to liquidate the obligation and reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the expenditure required to settle the present obligation at the end of the reporting period under review, taking into account the risk and uncertainties that surround obligation. When a provision is valued using cash flows estimated to settle the present obligation, its carrying amount represent the present value of those cash flows.

When expected to recover from a third party of some or all the economic benefits required to settle a provision is recognized a receivable as an asset if it is virtually certain to be received the disbursement and the amount of the receivable can be valued reliably.

- l. Cost of retirement benefits**. Contributions to benefit plans to defined contribution retirement are recognized as expenses at the time the employees render the services that entitle them to the contributions.

In the case of defined benefit plans, the cost of such benefits are determined using the projected unit credit method, with actuarial valuation carried out at the end of each period being reported. Gain and losses that exceed 10% of the greater of the present value of defined benefit obligations of the Company and the fair value of plan assets at the end of last year, are amortized over the estimated average remaining working lives of employees participating in the plan. The past service costs are recognized immediately to the extent that benefits are acquired otherwise, are amortized using the straight-line method over the average period until the benefits become acquired.

The retirement benefit obligation recognized in the statement of financial position represent the present value of defined benefit obligation, adjusted for gains and losses not recognized and the costs of unrecognized past service, less the fair value of the plan assets. Any asset that arises from this calculation is limited to unrecognized actuarial losses and past service cost, plus the present value of reimbursements and reductions in future contributions to the plan.

- m. Income per share**- Earnings per share are calculated by dividing net income controlling interest by the weighted average of common shares outstanding for each of the periods presented.

- n. Income Taxes**. Expense for income taxes represent the sum of the resulting income taxes payable and deferred income tax.

Current Income Tax- The current income tax is the higher income tax (ISR) and the flat rate business tax (Flat Tax) and is recognized in income in the year they are incurred. The income tax payable is based on fiscal profits and cash flows of each year respectively. The fiscal profit differs from profit reported in the consolidated statement of comprehensive income due to items of income or expenses taxable and deductible in other years and items that are never taxable or deductible. The company's liability for taxes due is computed using tax rates enacted or substantially approved at the end of the period over which it is reported.

Deferred Income Tax- The company determined, based on financial projections, determine whether ISR or Flat Tax in the future and recognize the corresponding deferred tax on the tax it paid. Deferred tax is recognized temporary differences between the carrying amount of assets and liabilities included in the financial statements and the corresponding tax base used to determine the tax profit, using the liability method. The deferred tax liability is generally recognized for all temporary tax differences. It recognizes a deferred tax asset, because of all deductible temporary differences, as far as is probable that the future taxable profits available against which to apply those deductible temporary differences. These assets and liabilities are not recognized if temporary differences arise from goodwill or the initial recognition (other than the business combination) of other assets and liabilities in a transaction that affects neither the tax profit accounting profit.

The carrying value of deferred tax asset should be reviewed at the end of each year and should be reduced to the extent deemed unlikely to have sufficient taxable profits to allow it to recover all or a portion of the asset.

Assets and deferred tax liabilities are computed using tax rates expected to apply in the period when the liability is paid or the asset is realized, based on the rates (and tax act) that have been approved or substantially approved the end of the reporting period under review. The valuation of liabilities and deferred tax assets reflects the tax consequences that would result from the way the Company expects, at the end of the reporting period under review, to recover or settle the carrying amount of assets and liabilities.

It also recognizes a deferred tax asset for the estimated future effects of tax loss carry-forwards and tax credits recoverable asset. It records a valuation allowance to reduce the balance of deferred tax assets to the amount of future net benefits are more likely than not they do.

Deferred tax assets and deferred tax liabilities are offset when there is a statutory right to offset short-term assets with short term liabilities as they relate to income taxes for the same taxation authority and the Company intends to liquidate its assets and liabilities en a net basis.

Current income tax and deferred income tax period. Current and deferred are recognized as income or expense in profit or loss, except when related items that are recognized out of the income, either in other comprehensive income or (loss) or directly in equity, in which case the tax is also recognized outside of the outcome, or when arising on initial recognition of a business combination.

Interest on balance recoverable taxes- Interest on tax receivables balances are presented in the consolidated statement of comprehensive income as interest income.

Income Tax in the interim period - The income tax is recorded in the interim period based on the estimated annual effective rate.

- o **Foreign currency transaction-** In preparing the financials statements of individual entities, transaction in currencies other than the entity's functional currency (foreign currencies) are recorded using exchange rates prevailing at the dates on which operations are carried out. At the end each reporting period, monetary items denominated in foreign currency are converted at exchange rates prevailing at that time.

The exchange rate differences are recognized in the income statement except:

- Foreign exchanges differences from foreign currency denominated loans relate to assets under construction for future productive use, which are included in the cost of those assets when considered as an adjustment to interest cost on loans denominated in foreign currency,
- Differences on exchange derived from transaction related to hedging exchange rate risks, and
- Differences in exchange rate from monetary items receivable from or payable to a foreign operation for which it is planned or is it possible to make a payment (forming part of the investment in foreign operations), which are initially recognized in other comprehensive income and reclassified from equity to profit or loss when selling all or part of investment.

p. Financial Instruments – assets and liabilities are recognized when the Company is part of the contractual provisions of the instrument.

The assets and liabilities are measured initially at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and liabilities are increased or decreased from its fair value, as appropriate, on initial recognition, the transaction costs directly attributable to the acquisition of assets or liabilities at fair value through income is recognized immediately in earnings.

q. Financial assets– Financial assets are classified into the following specific categories, “financial assets at fair value through income”, “preserved at maturity investment”, “financial assets available for sale” and loans and charge receivable. The classification depends on the nature and purpose of financial assets and is determined at the time of initial recognition. All financial assets are recognized and unknown on trade date where purchase or sale of financial assets is under a contract whose terms require delivery of the asset during a period which is usually set by the relevant market.

The method of the effective interest rate is a method of computed the amortized cost of a financial instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts including all fees on points based on interest paid or received that form an integral of the effective interest rate, transaction costs and other premiums or discounts over the expected life of the debt or financial instrument (where appropriate) in a shorter period, with the carrying amount on initial recognition.

The Company has no financial assets classified as “financial assets at fair value through income”, “preserved at maturity investments” or “financial assets available for sale”,

Accounts receivable, loans and other receivable with fixed or determinable payments that are not trade in an active market are classified as loans and receivable. Loans and receivables are stated at amortized cost using the effective interest method, less any impairment.

Financial assets other than financial assets at fair value through income, are subject testing for effects of impairment at the end of each period which is reported. It is considered that financial assets are impaired when there is objective evidence that as a result of one or more events that occurred after initial recognition of financial asset, the estimated future cash flows of the financial assets have been affected.

The estimates and underlying assumption are reviewed on a regular basis. The reviews at accounting estimates are recognized in the period of the review and future periods if the review affects both current period and to subsequent periods.

Objective evidence of impairment could include:

- Significant financial difficulties of the issuer or counterparty, or
- Non-payment of interest or principal, or
- It is likely that the borrower will enter bankruptcy of financial reorganization, or
- The disappearance of an active market where quoted by the financial asset because of financial difficulties.

For certain categories of financial assets such as accounts receivables, assets that have been subjected to testing for effects impairment and have not been impaired as individual, are included in the evaluation of impairment on a collective basis. Among the objective evidence that a portfolio of accounts receivable may be impaired, you could include the past experience of the Company with respect to the collection, an increase in the number of last payments in the portfolio in excess of the average credit period of 60 days as well as changes observable in national and local economic conditions that correlate with default on payments.

For financial assets carried at amortized cost, the amount of impairment loss recognized is the difference between the book value of assets and present value of future cash receipts discounted at the original effective interest rate of the asset financial.

The carrying value of financial assets is reduced by the impairment loss directly for all financial assets except for accounts receivable, where the carrying amount is reduced through an account estimate for doubtful accounts. When you consider that a receivable is uncollectible, it is removed from the estimate. The subsequent recovery of amounts previously deleted become claims against the estimate. Changes in the carrying value of the account of the estimate is recognized in income.

Except for equity instruments available for sale, if, in a subsequent period, the amount of the impairment loss decreases and this decrease can be related objectively to an event that occurs after recognition of impairment, impairment loss previously recognized is reversed through income to the extent that the carrying amount of investment to date reversed the impairment does not exceed the amortized cost would have been if he had not recognized the damage.

The company fails to recognize a financial asset only when the contractual rights on the cash flows of financial assets, and transfers substantially all the risk and benefits inherent to the ownership of financial assets. If the Company neither transfer nor retains substantially all the risks and benefits inherent to the ownership and continues to retain control of the asset transferred, the Company recognizes its interest in the asset and liability associated to the amounts that would have to pay. If the Company retains substantially all risks and benefits inherent in ownership of transferred financial asset, the Company continues to recognize the financial asset and also recognizes collateral for loan funds received.

When fully unknown a financial asset, the difference in value of the asset and the amount of the consideration received and the cumulative gain or loss that has been left to recognize in other comprehensive income (loss) and accumulated in the equity is recognized in income.

Not knowing a financial asset in part (where the Company retains the option to repurchase part of a transferred asset, or retains a residual interest that does not result in the retention of substantial risk and benefits property and the company retains control), the Company distributed the previous value of the asset financial between the part that continues to be recognized and the part no longer recognized based on the fair value of those parts of the date of transfer. The difference between the carrying amount allocated to the party is no longer recognized and the amount of the consideration received by such party, and any cumulative gain or loss allocated to it has been recognized in other comprehensive income (loss) will be recognized in income.

- s. **Financial liabilities** – debt and equity instruments issued by the Company are classified as either financial liabilities or equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and equity instrument. Financial liabilities are classified either as “financial liabilities at fair value through income “or” other financial liabilities”-

Financial liability at fair value through income is a financial liability is classified as held trading or is designated as fair value through income.

A financial liability is classified as held for trading if:

- Is acquired principally for the purpose of repurchasing in the near future, or,
- On initial recognition is part of identified financial instruments that are managed together and for which there is evidence of a recent pattern of making short-term profits, or
- It is a derivative not designed as hedges and meet the conditions to be effective.

A financial liability other than a financial liability held for trading may be designated as an financial liability at fair value through profit or loss upon initial recognition if:

- This eliminates or significantly reduces an inconsistency in the valuation or recognition that would otherwise arise, or
- The performance of a group of financial assets, financial liabilities or both is managed and evaluated on the basis of fair value, according to an investment strategy or risk management that the entity's documented, and provide internally about that group, based on their fair value or,
- Part of a contract containing one or more embedded derivatives, and IAS 39, Financial instruments Recognition and Measurement, allow the entire hybrid contract (asset or liability) is designated as at fair value through income.

Financial liabilities at fair value through income are recorded at fair value recognize any gain or loss arising from the remediation in the income statement. The gain or loss recognized in the statement include any dividend or interest earned from the financial asset and is included under the heading "other gains and losses" in the statement of comprehensive income.

Other financial liabilities, including loans, are valued initially at fair value, net of transaction costs. The method of effective interest rate is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate exactly discounts estimated cash payments over the expected life of the financial liability (or, where appropriate, a short period) to the carrying amount financial liabilities on initial recognition.

The Company writes off financial liabilities if and only if, the Company's obligations are fulfilled, cancelled or expire. The difference between the carrying amount of financial liability discharged from and the consideration paid and payable is recognized in earnings.

t Derivative financial instruments – The Company uses derivative financial instruments to manage its exposure to risk in the changes in natural gas prices, which is used for production, conducting studies on historical volumes, future requirements or commitments, reducing the exposure to risks outside the normal operation of the Company.

Derivatives are initially recognized at fair value at the date the derivative contract subscribe and then remiden at fair value at the end of the reporting period. The gain or loss is recognized in income immediately unless the derivative is designated and is effective as a hedging instrument, in which case the timing of the recognition results depend on the nature of the hedging relationship.

In order to mitigate the risks associated with fluctuations in the price of natural gas, whose price is based on supply and demand from major markets, the Company uses exchange contracts or swaps cash flow of natural gas, where price the Company receives floating and pays fixed price. Fluctuations in the price of this energy input from consumed volumes are recognized as part of the operating costs of the Company.

At the beginning of the hedging relationship, the Company documents the relationship between the hedging instrument and hedged item, along with its risk management objective and strategy of hedging transactions. Additionally, the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting the exposure to change in fair value or changes in cash flows of the hedged item.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flows hedges is recognized in other comprehensive income and accumulated under the title of the fair value of derivative financial instruments, net of profit taxes. Gains and losses on the ineffective portion of the hedging instrument is recognized instrument is recognized immediately in income, and is included in other income (expense)

The Company periodically assesses the changes in cash flows from derivative financial instruments to analyze if the swaps are highly effective in reducing exposure to fluctuations in the price of natural gas. A hedging instrument is considered highly effective when changes in fair value or cash flows of the primary position are compensated on a regular basis or as a whole, by changes in the fair value or cash flows of the hedging instrument in a range between 80% and 125%.

Amounts previously recognized in other comprehensive income and accumulated in equity are reclassified to earning in the periods when the hedged item is recognized in income in the same area of the statement of comprehensive income of hedged item recognized. However, when a forecast transaction that is covered gives rise to the recognition of a non-financial asset or liability is not financial gain or loss previously accumulated in equity are transferred and include in the initial valuation of the cost of the asset does not financial or nonfinancial liabilities.

Hedge accounting is discontinued when the Company reverses the hedging relationship, when the hedging instrument expires or is sold, terminated, or exercised, or no longer meets the criteria for hedge accounting. Any cumulative gain or loss on the hedging instrument that is recognized in equity remain in equity until the forecast transaction is ultimately recognized in the results. When no longer expects the forecast transaction occurs, the cumulative gain or loss in equity is immediately reclassified the results.

u. Revenue recognition – Revenue is recognized in the period in which transfer the risks and benefits of inventories to customer who purchased them, which usually coincides with the delivery of products to customers in fulfilling their orders. Net sales represent the goods sold at list price, less returns received and discounts.

V. Segments Information – Segment information is presented in accordance with the region and due to the operation business is presented in accordance with the information used by management for decision making purposes.

w. Earnings (loss) per share

Income per share is calculated by dividing controlling net income or loss, by the weighted average shares outstanding during each year presented.
